

MTK BEER

When you've worked up a Montauk sized thirst you know one place to head to quench that suck-er. Located just north of Main Street next to the local Laundromat, this family owned business has been keeping thirst at bay for three decades.

Of course they carry copious amounts of your familiar brands: Bud, Miller, Coors, and Rolling Rock to name a few. But what about those intoxicatingly exotic brews we hear so much about but rarely see? Well, stop in and gaze around on the near Nirvana of available brands. Dogfish Head, Ballast Point, Coney Island Brewing, Six Point, New Plank, Left Hand Brewing and more they've searched far and wide to bring you over 200 of the finest micro-brews on the East End.

Of course you have to grab a six of the local favorite, micro-brewed Montauk Beer. Now with three choices - Driftwood Ale, Summer Ale and the new, IPA - there's a taste for every taste! Need that or anything else delivered? They're happy to bring your order to your home, boat or beach.

43. S. Elmwood Ave - 668-5400

STAR ISLAND YACHT CLUB

Montauk's largest marina is home to its largest ships store, too. Newly remodeled and expanded for 2015 it has always been the perfect place to stock up on the best fishing tackle, bait, fishing clothes and accessories. And this year that means all your surfcasting needs, too! That's right; they've added all the lines and manufacturers you'll need to drag a trophy from the suds.

But, that isn't all folks. You'll also find racks of custom designed t-shirts, sweatshirts, sweaters and men's and women's resort wear. Need a good looking pair of shoes to go a-boating? They carry the best from Sperry Topsider and Cole Hahn. And with stormy weather on the horizon don't forget they stock the best selection of foul weather gear on the East End.

Star Island Drive - 668-5052

FORT POND NATIVE PLANTS

When you yearn for greenery in or outside your humble abode there's really only one place to go in Montauk. Located just a block north of Main Street our resident nursery/landscaper stocks and plants everything you need to make your garden grow.

Founded by James Grimes over 30 years ago these experts follow a core philosophy built on the cultivation and use of native species to beautify your home. Integrating the specific and the unusual with a full assortment of expected ornamentals insures a wonderful diversity of plants no other landscaper can provide. Count on their crack staff to recommend the right blend for your home, aesthetic and budget.

Need to add outdoor furniture, sculpture, a picturesque pond, functional walk or complete kitchen they can more than handle the job. Providing design and planning through execution and maintenance for projects large and small this truly is the answer to your landscaping questions.
